St. Louis draws far ahead in the national league.

Roosevelt working on further plan to hold off inflation.

Enough to Go Around

Now, for the first time in years, both farmers and manufacturers can work for the biggest possible yield without thinking about the market. This year they can sell all they can produce.

As things look now, this condition is due to keep up for some time, but we can't count on its lasting forever. Certainly nobody wants a prosperity built on war! So it's high time that everybody concerned—and that is everybody—gave some thought to keeping things running after the war.

You're busy, we know. So are we. The important thing right now is seeing that there's enough of everything to go around. But we've been devoting a little attention to the problems of the future, too. We feel that the people who have the producing job to do can contribute a lot to the solution of those problems.

And we hope that you, too, busy as you are with growing more food than this country's ever produced, will be turning these problems over in your mind. For if America's farmers and manufacturers, working together, can't find a way to keep the richest country on earth producing enough for everybody, and let the producers make a living in the process—if they can't, why then, who can? How to Use Steel-Saving Cover

1. First step: Fit wet, sterilized rubber ring around projection on underside of sterilized glass lid.

2. Second step: Place lid, with rubber ring fitted on it, directly on top of jar mouth.

3. Third step: Screw lid and ring down with screw band. Have band tests, release vacuum inside jar by lifting loosely during processing. Tighten immediately after processing. When jar is thoroughly cool, screw band may be removed permanently.

4. To open jar before serving contents for ring fitted on it, inserting dull table knife under jar rubber.

AMERICAN HEROES

BY LEFF

Because he sealed the walls of the fortification at Kasba-Medbia French Morocco, and from that hazardous position diverted the attention of the enemy with his rifle fire, enabling our troops to enter through the main gates of the fort, Pfc. C. L. Mobley was awarded the Distinguished Service Cross. He risked his life for you. How it out yourself.

U. S. Treasury Department

Rush Output of Giant Bombers

1,000 a Month Is Schedule Planned for New Air Monster.

WASHINGTON.—The scheduled production of a new super-bomber, which will join the big Flying Fortresses and Liberators in smashing the Axis, was disclosed by Charles E. Wilson, executive vice chairman of the War Production board, who declared that America would be turning out bombers at the rate of 1,000 a month by next April. He declined to give any details of the new air monster or when it would be in action.

Wilson also disclosed that a new aircraft plant at Marietta, Ga., which he described as comparable in size to the Ford Motor company's huge Willow Run bomber plant at Detroit, would be in partial production this fall and "in good heavy production by the spring of 1944."

Plan to Double Output.

More than 500 heavy bombers were produced in April of this year, four times the number made a year ago, Wilson said, and added that by next April the output would be double the present number. He said his figures for next April did not include the superbombers.

The most significant developments in the aircraft program, he continued, are the increased emphasis on heavier bombers and the steady increase in the average weight of all combat planes. The trend, he said, reflects the piling on of more armor, fire power, and bomb loads and generally improved performance.

In this connection he noted that while the number of bombers produced last month was double that of April, 1942, their total weight was almost three times greater. Schedules for April, 1944, he said, call for three times as many planes and six times the weight of the April, 1942, output.

Quantity Increases.

This increased emphasis on heavier planes "doesn't mean that we aren't getting the numbers, too," Wilson declared. "Our schedules this year call for almost three times the number of both fighters and all other bombers produced in 1942."

But he said that aircraft production last month fell below the goal of 7,000 planes and said he was not sure that 7,000 would be produced in May. He warned that close control over distribution of aluminum parts, which is a bottleneck in production, will be exercised by WPB.

Army Doctor in Africa Treats Patients From Home

ENGLEWOOD, N. J.—Corp. John P. Sherwin, son of Mr. and Mrs. Harry E. Sherwin of Englewood and Rindge, N. H., was seriously wounded early in April in the battle of El Guettar, in which he was serving with a Commando division.

He was taken to a field hospital in the Atlas mountains and when Capt. John Skelton came to his side to operate on his leg, the doctor exclaimed, "Why, aren't you Johnny Sherwin?"

In the summer of 1937 when Corporal Sherwin was a boy on vacation at Lake Monomonack, N. H., he injured his right foot, the same foot injured now in battle, and was taken to Dr. Skelton's office at Winchendon, N. H., for treatment.

The boy's parents received today from their son a letter telling of the incident. He added that Captain Skelton has looked in on him every day since and that he is recovering.

"Don't worry about me. I'm getting along fine," the soldier wrote.

U. S. Pays $3,600 a Year For Each $1-a-Year Man

WASHINGTON.—It costs the government about $3,600 annually to maintain one "dollar-a-year" man in the War Production board, according to the budget officer, Francis R. Cawley. The money is paid for travel and living expenses.

Mr. Cawley made the statement in testimony before a house appropriations subcommittee considering a deficiency appropriation of $3,247,000 requested by the WPB. He said that the board had 850 "dollar-a-year" men.

Pigs Arrive at Market Under Their Own Power

CLARKSVILLE, TEXAS. — Start early enough with pigs, opines George Daniel, and they can be trained just like anything else.

Daily Daniel arrived at the sty in his automobile to feed the pigs. They learned to associate his car with food.

When it was time to market, Daniel couldn't get a truck. He drove to the sty and let the hogs out. Squealing, they trailed the car three miles to a shipping point.

Yanks Take Over to Rest Doctors in New Zealand

WELLINGTON.—Two radiologists attached to the United States medical service in New Zealand have won acclaim for taking the place of staff members at the Auckland hospital who were thus enabled to get short periods of rest. The Americans are Maj. M. D'Amico and Lieut. R. J. Littwin. Visiting American radiologists in Wellington also placed themselves at the disposal of the public hospital.

PUBLIC AUCTION SALE OF VALUABLE HOUSE AND LOT IN THE TOWN OF APPOMATTOX, VA.

The undersigned will offer for sale at public auction on the premises on

MONDAY, AUGUST 2, 1943 AT ELEVEN O'CLOCK, A. M.

The following Real Estate, to-wit:

The BRIGGS AGEE HOME AT APPOMATTOX, VIRGINIA, and being a lot of land lying on Evergreen Avenue, and adjoining the lands of C. A. Agee and in the Southeastern part of the Town of Appomattox, Va. The lot has a frontage on Evergreen Avenue (State highway No. 24) of 100 feet and a depth of 209 feet and is the same width all the way back. It being the same tract of real estate that was conveyed to W. A. Agee and Ella Agee by deed of record in the Clerk's Office of the Circuit Court of Appomattox County, Virginia, in Deed Book No. 25 at page 432.

On the above lot of land is a fine cottage in good condition and repair. It is located in a good section of the Town and will make some one a fine home. There is a good garden spot on the lot.

Possession will be given the 1st day of September, 1943, and the growing garden will be reserved.

W. M. ABBITT,

Administrator of W. A. Agee Estate and Attorney in fact for the Children and heirs at law of Ella Agee, Deceased.
